

**DELIVERING WITH COMMITMENT**

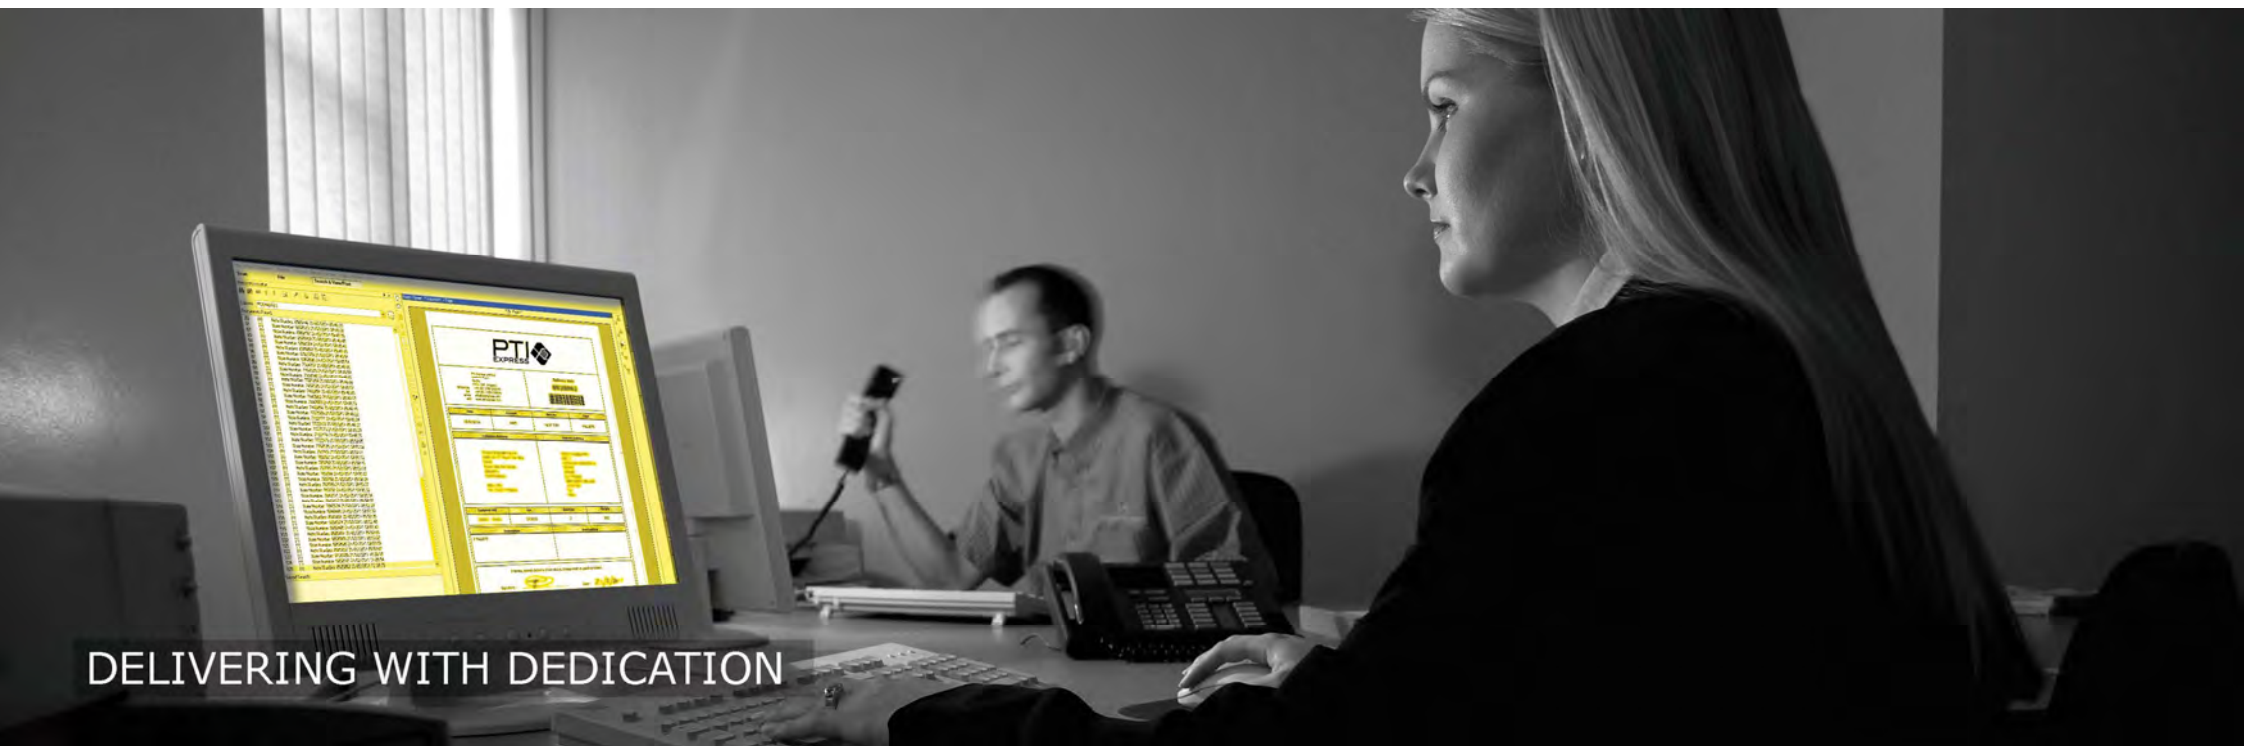

## DELIVERING WITH A DIFFERENCE

The distribution market is a competitive one. If you need your goods delivering you will have quite a few choices open to you. It's something we at PTI Express never forget. We recognise that it's not only our reputation at stake with every critical delivery; it's yours too.

Our core business is transport and we specialise in distribution throughout the whole of Ireland. We provide a complete service including all customs formalities allowing seamless distribution to all 32 counties in Ireland. Our substantial network throughout England, Scotland and Wales means we can also provide a cost effective pallet delivery service nationwide.

DELIVERING WITH DEDICATION

We have our own in house customs team that will help you with all the requirements needed to export your goods. PTI Express can make customs declarations on your behalf under DDP (delivery duty paid) Incoterms. Please refer to our Customs Information Pack for full details.

DELIVERING WITH PASSION

As a privately owned company with a dedicated management team we aim to keep our prices competitive. Our program of investment aims to deliver added value to your business and helps us retain our competitive advantage. When PTI Express started in 1989 the business made a single commitment - to be the most dependable delivery service available. That commitment has never wavered. It never will.
